Friday, April 21, 2017

Las Vegas, NV...The Tarkanian family were the honorees for the 27th Annual American Heart and Stroke Association's Heart Ball. Their son Jerry Tarkanian Jr. suffered from a pediatric ischemic stroke when he was only 5 years old. In order to help bring awareness that strokes can happen at any age, the Tarkanian's were asked to share their son's story of survival.

Heart Ball board member and Mrs. Las Vegas, Yelena Anter partnered up with community leader Sylvia Kimball to collect toys for the Tark Toy Drive. The Tark Toy Drive was created to help educate parents and bring smiles to kids in the ICU while they recover.

Tomorrow at 3:45 these community leaders along with the Tarkanian's will be making their next delivery to the University Medical Center of Southern Nevada where Jerry Tarkanian Jr. at the time of his stroke, was hospitalized and recovered.
